Professional Summary

Software Developer with strong foundations in Java, Python, Php, C, JavaScript, React.js, Node.js, Express.js, and MongoDB. MCA graduate with hands-on experience in full-stack web development, REST APIs, database design, and AI-integrated applications.

Technical Skills

- **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+) ,
- **Backend:** Node.js, Express.js, REST APIs,
- **Framework:** Laravel, Django
- **Programming Languages:** MERN, Java, Python, C++, C, Php
- **Web Technologies:** HTML, CSS, JavaScript (ES6+)
- **Database Management:** MySQL, SQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, XAMPP
- **Concepts:** CRUD Operations, API Integration, MVC Architecture

Education

Master of Computer Applications (MCA)

University Institute of Engineering & Technology, CSJM University (A++) (Campus), Kanpur: July 2023 - May -2025

Bachelor of Computer Applications (BCA)

Jagran College of Arts, Science & Commerce, Juhi, Kanpur

July 2017 – June 2020

Professional Experience:

MERN Stack Developer Intern (3 Months-Remote)

The Entrepreneurship Network (TEN)

February 2026- April 2026

Developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN Stack).

- Building responsive and user-friendly UI components using React.js.
- Designing RESTful APIs and integrating backend services with frontend applications.
- Working with MongoDB for database design, CRUD operations, and data management.
- Gaining hands-on experience in real-world project development and agile workflows.

Computer Science / IT Instructor

DDEC College, Kanpur | April 2025 – November 2025

- Taught programming fundamentals and IT concepts to 12th-grade students.
- Guided students in developing and completing academic coding projects.
- Conducted hands-on programming sessions using Python, Java, C++, HTML, CSS, and JavaScript, improving student problem-solving and debugging skills..
- Assisted students with debugging, project structuring, and presentations.

Internship

Java Programming Internship (1 Month): [Encryptix], [Virtual Kanpur]

June 2024 – July 2024

- Contributed to development of internal debugging and performance enhancement tools using Java and MySQL

Projects

MERN E-Commerce Website

(Full Stack Developer Project) --

<https://github.com/Alok199810/MERN-Ecommerce.git>

- Built a full-featured e-commerce platform using **MongoDB, Express.js, React.js, and Node.js**.
- Developed secure authentication with **JWT** and integrated **Stripe** for online payments.
- Implemented product browsing, search, cart, and order management features.
- Designed an **admin dashboard** for managing products, categories, users, and orders.
- Structured scalable frontend, backend, and admin modules with RESTful APIs.

Password Manager (MERN Stack)

- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, Tailwind CSS, UUID, React-Toastify
- Developed a secure Password Manager web application using the MERN stack to store and manage user credentials.

- Implemented full CRUD operations with REST APIs using Express.js and MongoDB.
- Designed responsive frontend UI using React.js and Tailwind CSS with password masking and toggle visibility feature.
- Used UUID for unique record identification and ensured real-time state updates using React Hooks.
- Connected frontend and backend using Fetch API with proper CORS handling.

AI Virtual Classroom:

- **Tech Stack:** PHP, MySQL, JavaScript, HTML5, CSS3, DeepSeek AI (via Ollama)
- **Developed** a full-stack web application with role-based authentication, REST API integration, assignment submission, and database-driven user management. supporting and video classes.
- **Integrated an AI chatbot** to assist with student queries using DeepSeek model via Ollama API.

Ad Recommendation System using Demographics:

- **Tech Stack:** Python, Scikit-learn, Pandas, Node.js, Express.js, HTML, JavaScript
- **Prediction Model:** Implemented a rule-based matching system with a scoring mechanism to determine ad relevance.
- **Backend Integration:** Created a RESTful API using Node.js and Express.js that communicates with a Python script for real-time prediction.
-

Certifications

- **Python Programming** – Jagran Institute of Management (RCPL) | - **March 2019**
- **PHP with MySQL** – Jagran Institute of Management (RCPL) | - **Aug 2019**
- **Employability Enhancement Program** – CENTOM Foundation (Supported by Infosys)| -**March 2025**

Academic Achievements & Activities

- 1st Prize – Chess Tournament, Jagran College Annual Fest
